Subject : Request for Information on Optimizing Axios API Calls

Dear Mr.Akshay

I hope you are doing well. I am reaching out to request for your assistance in optimizing Axios API calls in the weather app project we are working on . And I would be thankful enough if you could share any insights regarding this, it would be a great help to me moving forward.

Like the way you have assisted me on my previous e-commerce project it would be a great if you could just point me to any relevant resources or share your own experience as I have seen you working on the big projects.

Thank you in advance for your time and support I truly appreciate that . And I am looking forward to learning from your expertise . Please let me know if there is a convenient time to discuss this further or you prefer to share any of the information via email.

Best regards,

Rohit Mehta
